Prior to examination, please amend the above-identified application as follows:

IN THE CLAIMS:

Please add the following new claims:

- 1 10. (Newly Added) In a recording and reproduction apparatus receiving
2 an access command from an external device, the access command being one of a
3 raw access command and a non-raw access command, and the raw access
4 command including one of read data and write data,
- 5 a method of controlling access to a data storage region in the recording and
6 reproduction apparatus comprising the steps of:
- 7 (a) receiving an access command from the external device; (b) determining
8 if the access command is a raw access command of read data;
- 9 (c) if step (b) determines that the access command is a raw access command
10 of read data, permitting access to the external device which issued the raw access
11 command;
- 12 (d) if step (b) determines that the access command is a raw access
13 command of write data, performing the following steps:
- 14 (i) authenticating the external device which issued the
15 raw access command; and
